HOW TO CITE RULES AND RSMo

RULES—Cite material in the *Missouri Register* by volume and page number, for example, Vol. 28, *Missouri Register*, page 27. The approved short form of citation is 28 MoReg 27.

The rules are codified in the *Code of State Regulations* in this system—

Title	Code of State Regulations	Division	Chapter	Rule
1	CSR	10-	1.	010
Department		Agency, Division	General area regulated	Specific area regulated

They are properly cited by using the full citation , i.e., 1 CSR 10-1.010.

Each department of state government is assigned a title. Each agency or division within the department is assigned a division number. The agency then groups its rules into general subject matter areas called chapters and specific areas called rules. Within a rule, the first breakdown is called a section and is designated as (1). Subsection is (A) with further breakdown into paragraph 1., subparagraph A., part (I), subpart (a), item I. and subitem a.

RSMo—The most recent version of the statute containing the section number and the date.

Rules appearing under this heading are filed under the authority granted by section 536.025, RSMo 2000. An emergency rule may be adopted by an agency if the agency finds that an immediate danger to the public health, safety, or welfare, or a compelling governmental interest requires emergency action; follows procedures best calculated to assure fairness to all interested persons and parties under the circumstances; follows procedures which comply with the protections extended by the *Missouri* and the *United States Constitutions*; limits the scope of such rule to the circumstances creating an emergency and requiring emergency procedure, and at the time of or prior to the adoption of such rule files with the secretary of state the text of the rule together with the specific facts, reasons, and findings which support its conclusion that there is an immediate danger to the public health, safety, or welfare which can be met only through the adoption of such rule and its reasons for concluding that the procedure employed is fair to all interested persons and parties under the circumstances.

Rules filed as emergency rules may be effective not less than ten (10) days after filing or at such later date as may be specified in the rule and may be terminated at any time by the state agency by filing an order with the secretary of state fixing the date of such termination, which order shall be published by the secretary of state in the *Missouri Register* as soon as practicable.

All emergency rules must state the period during which they are in effect, and in no case can they be in effect more than one hundred eighty (180) calendar days or thirty (30) legislative days, whichever period is longer. Emergency rules are not renewable, although an agency may at any time adopt an identical rule under the normal rulemaking procedures.

Title 20—DEPARTMENT OF INSURANCE, FINANCIAL INSTITUTIONS AND PROFESSIONAL REGISTRATION

Division 400—Life, Annuities and Health Chapter 11—Navigators

EMERGENCY RULE

20 CSR 400-11.140 Renewal Applications and Fees—Individual Navigators and Entity Navigators

PURPOSE: *This rule prescribes the license renewal application process and fees for individual navigators and entity navigators. All forms referenced in this regulation may be accessed at the department's website at www.insurance.mo.gov.*

EMERGENCY STATEMENT: *After sections 376.2000 through 376.2014, known as the "Health Insurance Marketplace Innovation Act" (HIMIA) became law on July 12, 2013, but before the promulgation of a rule regarding renewal requirements for individual navigators and entity navigators, the United States District Court, Western District of Missouri, issued a preliminary injunction on January 23, 2014 enjoining the statutes' enforcement by the Director of the Missouri Department of Insurance, Financial Institutions and Professional (department) of HIMIA. St. Louis Effort for AIDS, et al. v. Director John Huff, in his official capacity as Director of the Department, U.S.D.Ct., W.D., No. 2:13-cv-4246. On April 10, 2015,*

the Eighth Circuit Court of Appeals affirmed the preliminary injunction as to enforcement of certain provisions within HIMIA, vacated the preliminary injunction regarding the enforcement of the licensure renewal statutes and rulemaking authority in HIMIA, and remanded the case to the district court. St. Louis Effort for AIDS, et al. v. Director John M. Huff in his official capacity as Director of the Department, 782 F.3d 1016 (8th Cir. 2015). On May 26, 2015, the district court issued its order recognizing that the Eighth Circuit Court of Appeals issued its mandate on May 6, 2015, and ordered the case to proceed. The district court's order did not enjoin the director's enforcement of the licensure renewal provisions or rulemaking authority in HIMIA. St. Louis Effort for AIDS, et al. v. Director John Huff, in his official capacity as Director of the Department, U.S.D.Ct., W.D., No. 2:13-cv-4246.

*The department issued its first individual navigator and entity navigator licenses in September 2013. Such licenses are valid for two years and are due to be renewed, pursuant to section 376.2006, beginning September 2015. This emergency rule is required to implement section 376.2006, as authorized by section 376.2014.3, to ensure the appropriate renewal requirements are prescribed. A proposed rule that covers this same material is published in this issue of the *Missouri Register*. The scope of this emergency rule is limited to the circumstances creating the emergency and complies with the protections in the *Missouri* and *United States Constitutions*. The Department of Insurance, Financial Institutions and Professional Registration believes this emergency rule is fair to all interested persons and parties under these circumstances. This emergency rule was filed July 15, 2015, becomes effective July 25, 2015, and expires February 25, 2016.*

**Title 20—DEPARTMENT OF INSURANCE,
FINANCIAL INSTITUTIONS AND PROFESSIONAL
REGISTRATION**

**Division 2220—State Board of Pharmacy
Chapter 4—Fees Charged by the Board of Pharmacy**

EMERGENCY AMENDMENT

20 CSR 2220-4.010 General Fees. The Board of Pharmacy is proposing to add section (5).

PURPOSE: The Board of Pharmacy is statutorily obligated to enforce and administer the provisions of Chapter 338, RSMo, governing the practice of pharmacy. Pursuant to section 338.070, RSMo, the board shall set the appropriate amount of fees by rule, so that the revenue produced shall not substantially exceed the cost and expense of administering the provisions of Chapter 338, RSMo. Based on the board's five (5)-year projections, the board finds it necessary to reduce renewal fees for Missouri pharmacies and drug distributors.

EMERGENCY STATEMENT: The Board of Pharmacy is statutorily obligated to set all fees, by regulation, necessary to administer the provisions of Chapter 338, RSMo. Pursuant to section 338.070, RSMo, the board shall set the appropriate amount of fees by rule, so that the revenue produced shall not substantially exceed the cost and expense of administering the provisions of Chapter 338, RSMo. Therefore, the board is proposing to decrease 2015 renewal fees for Missouri pharmacies and drug distributors from four hundred fifty dollars (\$450) to one hundred fifty dollars (\$150). Pharmacy and drug distributor renewal notices will be mailed on August 1, 2015. Without this emergency amendment, the decreased fee requirements will not be effective prior to renewal notices being mailed, and the board will collect more revenue than it is statutorily authorized to collect. The scope of the emergency amendment is limited to the circumstances creating the emergency and complies with the protections extended in the *Missouri* and *United States Constitutions*. In developing this emergency amendment, the board has determined that the fee decrease is necessary for the 2015 renewal period to prevent funds from exceeding the maximum fund balance thereby resulting in a transfer from the fund to general revenue as set forth in section 338.070.3, RSMo. Pursuant to section 324.001.10, RSMo, a compelling governmental interest is deemed to exist for the purposes of section 536.025, RSMo, for licensure fees to be reduced by emergency rule, if the projected fund balance of any agency assigned to the Division of Professional Registration is reasonably expected to exceed an amount that would require transfer from that fund to general revenue. The board believes this emergency amendment to be fair to all interested persons and parties under the circumstances. This emergency amendment was filed July 10, 2015, becomes effective July 20, 2015, and expires December 1, 2015.

(5) To ensure compliance with section 338.070, RSMo, the following renewal fees shall be effective from August 1, 2015, to October 31, 2015:

(A) Pharmacy Distributor/Wholesale Drug Distributor License Renewal Fee	\$150
(B) Pharmacy Permit Renewal Fee	\$150

AUTHORITY: sections [338.020,] 338.040, 338.060, 338.070, 338.185, 338.230, 338.270, 338.280, and 338.350, RSMo 2000, [and] sections 338.035, 338.140, [338.220,] and 338.335, RSMo Supp. 2013, and sections 338.020 and 338.220, RSMo Supp. 2014.

For intervening history, please consult the *Code of State Regulations*. Emergency amendment filed July 10, 2015, effective July 20, 2015, expires Dec. 1, 2015.*

The Secretary of State shall publish all executive orders beginning January 1, 2003, pursuant to section 536.035.2, RSMo Supp. 2014.

Under this heading will appear the text of proposed rules and changes. The notice of proposed rulemaking is required to contain an explanation of any new rule or any change in an existing rule and the reasons therefor. This is set out in the Purpose section with each rule. Also required is a citation to the legal authority to make rules. This appears following the text of the rule, after the word "Authority."

Entirely new rules are printed without any special symbolology under the heading of proposed rule. If an existing rule is to be amended or rescinded, it will have a heading of proposed amendment or proposed rescission. Rules which are proposed to be amended will have new matter printed in boldface type and matter to be deleted placed in brackets.

An important function of the *Missouri Register* is to solicit and encourage public participation in the rulemaking process. The law provides that for every proposed rule, amendment, or rescission there must be a notice that anyone may comment on the proposed action. This comment may take different forms.

If an agency is required by statute to hold a public hearing before making any new rules, then a Notice of Public Hearing will appear following the text of the rule. Hearing dates must be at least thirty (30) days after publication of the notice in the *Missouri Register*. If no hearing is planned or required, the agency must give a Notice to Submit Comments. This allows anyone to file statements in support of or in opposition to the proposed action with the agency within a specified time, no less than thirty (30) days after publication of the notice in the *Missouri Register*.

An agency may hold a public hearing on a rule even though not required by law to hold one. If an agency allows comments to be received following the hearing date, the close of comments date will be used as the beginning day in the ninety- (90-) day-count necessary for the filing of the order of rulemaking.

If an agency decides to hold a public hearing after planning not to, it must withdraw the earlier notice and file a new notice of proposed rulemaking and schedule a hearing for a date not less than thirty (30) days from the date of publication of the new notice.

Proposed Amendment Text Reminder:

Boldface text indicates new matter.

[Bracketed text indicates matter being deleted.]

Title 10—DEPARTMENT OF NATURAL RESOURCES Division 10—Air Conservation Commission Chapter 6—Air Quality Standards, Definitions, Sampling and Reference Methods and Air Pollution Control Regulations for the Entire State of Missouri

PROPOSED AMENDMENT

10 CSR 10-6.241 Asbestos Projects—Registration, Abatement, Notification, Inspection, Demolition, and Performance Requirements. The commission proposes to change the rule title; change the rule purpose; amend subsections (1)(A), (3)(A), (3)(E), and (3)(F); and add subsection (3)(J). If the commission adopts this rule action, the department does not intend to submit this rule amendment to the U.S. Environmental Protection Agency because the rulemaking to adjust the asbestos fee structure is administrative and the rule has never been approved as part of the Missouri State Implementation Plan. The evidence supporting the need for this pro-

posed rulemaking is available for viewing at the Missouri Department of Natural Resources' Air Pollution Control Program at the address listed in the Notice of Public Hearing at the end of this rule. More information concerning this rulemaking can be found at the Missouri Department of Natural Resources' Environmental Regulatory Agenda website, www.dnr.mo.gov/reg/index.html.

PURPOSE: This amendment changes the asbestos fee structure pursuant to 643.079.10, RSMo. This proposed rulemaking will increase the asbestos registration fee from one thousand dollars (\$1,000) to two thousand six hundred fifty dollars (\$2,650) per registration, increase the asbestos inspection fee from one hundred dollars (\$100) per inspection for the first three (3) inspections to two hundred dollars (\$200) per inspection for the first two (2) inspections, increase the asbestos abatement notification fee from one hundred dollars (\$100) to two hundred dollars (\$200) per notification, and commence collection of an asbestos demolition fee of one hundred dollars (\$100). The increased asbestos fees will enable the department's Air Pollution Control Program to maintain its asbestos program to protect the health of Missouri citizens. The evidence supporting the need for this proposed rulemaking, per 536.016, RSMo, is 643.079.10, RSMo, and the May 28, 2015, presentation to the Missouri Air Conservation Commission.

PURPOSE: This rule requires asbestos contractors to register with the department, to notify the department of each asbestos project, to allow the department to inspect asbestos projects, and to pay inspection fees. Each person who intends to perform asbestos projects in Missouri must register annually with the Missouri Department of Natural Resources[,] Air Pollution Control Program. [Each asbestos contractor] Any person undertaking a demolition or asbestos project must submit a notification to the appropriate agency of the department for each asbestos project[. E] and each notification [for projects exceeding a certain size] must be accompanied by a fee. Asbestos contractors must allow representatives of the department to conduct inspections of projects and must pay inspection fees. [The evidence supporting the need for this proposed rulemaking, per section 536.016, RSMo, is the decision of the Cole County Court case number CV 197-985 CC that found rule 10 CSR 10-6.240 void from inception and state statute 643.242, RSMo that authorizes the commission to assess a fee of \$100 for each on-site inspection of asbestos projects.]

(1) Applicability.

(A) This rule shall apply to—

1. All persons that authorize, design, conduct, and work in asbestos projects; and
2. All persons that **undertake demolition projects** or monitor air-borne asbestos and dispose of asbestos waste as a result of asbestos projects.

(3) General Provisions.

(A) Registration.

1. Any person that conducts an asbestos project shall register with the department. Business entities that qualify for exemption status from the state must reapply for exemption from registration.

2. The person shall apply for registration renewal on an annual basis, and two (2) months before the expiration date shall send the application to the department for processing. The contractor registration application or business exemption information shall be submitted on the forms provided by the department.

3. Annually, the person submitting a registration application to the department shall remit a nonrefundable fee of one thousand dollars (\$1,000) to the department. **Effective January 1, 2017, the registration fee is two thousand six hundred fifty dollars (\$2,650).**

4. To determine eligibility for registration and registration renewal, the department may consider the compliance history of the applicant as well as that of all management employees and officers. The department may also consider the compliance record of any other entity of which those individuals were officers and management employees.

(E) Asbestos Project Notification. Any person undertaking an asbestos project shall submit a notification to the department for review at least ten (10)-working days prior to the start of the project. Business entities with state-approved exemption status are exempt from notification except for those projects for which notification is required by the EPA's National Emission Standards for Hazardous Air Pollutants (NESHAPS). The department may waive the ten (10)-working day review period upon request for good cause. To apply for this waiver, the person shall complete the appropriate sections of the notification form provided by the department. The person who applies for the ten (10)-working day waiver must obtain approval from the department before the project can begin.

1. The person shall submit the notification form provided by the department.

2. If an amendment to the notification is necessary, the person shall notify the department immediately by telephone or FAX. The department must receive the written amendment within five (5) working days following verbal agreement.

3. Asbestos project notifications shall state actual dates and times of the project, the on-site supervisor and a description of work practices. If the person must revise the dates and times of the project, the person shall notify the department and the regional office or the appropriate local delegated enforcement agency at least twenty-four (24) hours in advance of the change by telephone or FAX and then immediately follow-up with a written amendment stating the change. The department must receive the written amendment within five (5) working days of the phone or FAX message.

4. A nonrefundable notification fee of one hundred dollars (\$100) will be charged for each project constituting one hundred sixty (160) square feet, two hundred sixty (260) linear feet, or thirty-five (35) cubic feet or greater. **Effective January 1, 2017, the notification fee is two hundred dollars (\$200).** If an asbestos project is in an area regulated by an authorized local air pollution control agency, and the person is required to pay notification fees to that agency, the person is exempt from paying the state fees. Persons conducting planned renovation projects determined by the department to fall under EPA's 40 CFR part 61 subpart M must pay this fee and the inspection fees required in subsection (3)(F) of this rule.

5. Emergency project. Any person undertaking an emergency asbestos project shall notify the department by telephone and must receive departmental approval of emergency status. The person must notify the department within twenty-four (24) hours of the onset of the emergency. Business entities with state-approved exemption status are exempt from emergency notification for state-approved projects that are part of a NESHAPS planned renovation annual notification. If the emergency occurs after normal working hours or weekends, the person shall contact the Environmental Services Program. The notice shall provide—

A. A description of the nature and scope of the emergency;

B. A description of the measures immediately used to mitigate the emergency; and

C. A schedule for removal. Following the emergency notice, the person shall provide to the director a notification on the form provided by the department and the person shall submit it to the director within seven (7) days of the onset of the emergency. The amendment requirements for notification found in subsection (3)(E) of this rule are applicable to emergency projects.

(F) Inspections. There shall be a charge of one hundred dollars (\$100) per inspection for the first three (3) inspections of any asbestos project. **Effective January 1, 2017, the inspection fee is two hundred dollars (\$200) per inspection for the first two (2) inspections.** The department or the local delegated enforcement

agency shall bill the person for that inspection(s) and the person shall submit the fee(s) within sixty (60) days of the date of the invoice, or sooner, if required by a local delegated enforcement agency within its area of jurisdiction.

(J) Demolition Projects. Effective January 1, 2017, a nonrefundable notification fee of one hundred dollars (\$100) will be charged for each demolition project regulated under 10 CSR 10-6.080. If a demolition project is in an area regulated by an authorized local air pollution control agency and the person is required to pay notification fees to that agency, the person is exempt from paying the state fees.

---	---------

*The first full fiscal year for this rulemaking is 2018.

**Difference in estimated annualized aggregate costs when raising asbestos fees as follows:

Asbestos Registration >> \$1000 fee to \$2650.

Asbestos Inspection >> \$100 fee to \$200.

Abatement Notification >> \$100 fee to \$200.

Demolition >> Start collecting \$100 fee.

IV. ASSUMPTIONS

1. An annualized aggregate cost of this rulemaking is used for the purposes of providing the aggregate cost for the life of the rule. The annualized aggregate cost is the agency estimate of the average costs that will be incurred in any future year, no matter how far distant. For the convenience of calculating this fiscal note over a reasonable time frame, the life of the rule is assumed to be five (5) years although the duration of the rule is indefinite. If the life of the rule extends beyond 5 years, the annual costs for additional years will be consistent with the assumptions used to calculate annual costs as identified in this fiscal note.
2. The total numbers of registrations, inspections, and notifications are based on a five-year average for fiscal years 2010 through 2014 because it is the most recent data that contains no atypical yearly values. These values are estimated to remain constant through fiscal year 2022.

3. The total number of demolitions is based on a three-year average for fiscal years 2012 through 2014 because it is the most recent data that contains no atypical yearly values. These values are estimated to remain constant through fiscal year 2022.
4. The numbers of public entity registrations, inspections, notifications, and demolitions are based on data collected for asbestos-related activities for calendar years 2013 and 2014 because it is the most recent data that contains no atypical yearly values. These activity levels are estimated to remain constant through fiscal year 2022.
5. Asbestos registration fees are based on \$2,650 per application registration fee effective January 1, 2017. This fee represents a \$1,650 increase from the fee of \$1,000 per application prior to January 1, 2017.
6. Asbestos inspection fees are based on \$200 per inspection effective January 1, 2017. This fee represents a \$100 increase from the fee of \$100 per inspection prior to January 1, 2017.
7. Asbestos abatement notification fees are based on \$200 per notification effective January 1, 2017. This fee represents a \$100 increase from the fee of \$100 per notification prior to January 1, 2017.
8. The demolition fee is currently not collected. This fee will be collected effective January 1, 2017.
9. The aggregate gain in private entity fee revenue for the Missouri Department of Natural Resources' Air Pollution Control Program is directly related to the difference in asbestos fees. The net gain in revenue is equivalent to the amount of gain realized by private entities paying asbestos fees.
10. Fee collection amounts for FY 2017 through 2022 are based on an average of 113 registrations per year (1 from public entities), 86 inspections per year (1 from public entities), 346 abatement notifications per year (10 from public entities), and 535 demolitions per year (25 from public entities).
11. The fees collected are uniformly distributed throughout the fiscal years.
12. This fiscal note only includes estimated costs for changes made as a result of this proposed rule amendment.
13. Numbers in charts are shown as whole numbers but actual numbers may include decimal places which may appear to be a variance in totals.

IV. ASSUMPTIONS

1. An annualized aggregate cost of this rulemaking is used for the purposes of providing the aggregate cost for the life of the rule. The annualized aggregate cost is the agency estimate of the average costs that will be incurred in any future year, no matter how far distant. For the convenience of calculating this fiscal note over a reasonable time frame, the life of the rule is assumed to be five (5) years although the duration of the rule is indefinite. If the life of the rule extends beyond 5 years, the annual costs for additional years will be consistent with the assumptions used to calculate annual costs as identified in this fiscal note.
2. The total numbers of registrations, inspections, and notifications are based on a five-year average for fiscal years 2010 through 2014 because it is the most recent data that contains no atypical yearly values. These values are estimated to remain constant through fiscal year 2022.

3. The total number of demolitions is based on a three-year average for fiscal years 2012 through 2014 because it is the most recent data that contains no atypical yearly values. These values are estimated to remain constant through fiscal year 2022.
4. The numbers of private entity registrations, inspections, notifications, and demolitions are based on data collected for asbestos-related activities for calendar years 2013 and 2014 because it is the most recent data that contains no atypical yearly values. These activity levels are estimated to remain constant through fiscal year 2022.
5. Asbestos registration fees are based on \$2,650 per application registration fee effective January 1, 2017. This fee represents a \$1,650 increase from the fee of \$1,000 per application prior to January 1, 2017.
6. Asbestos inspection fees are based on \$200 per inspection effective January 1, 2017. This fee represents a \$100 increase from the fee of \$100 per inspection prior to January 1, 2017.
7. Asbestos abatement notification fees are based on \$200 per notification effective January 1, 2017. This fee represents a \$100 increase from the fee of \$100 per notification prior to January 1, 2017.
8. The demolition fee is currently not collected. This fee will be collected effective January 1, 2017.
9. The aggregate gain in private entity fee revenue for the Missouri Department of Natural Resources' Air Pollution Control Program is directly related to the difference in asbestos fees. The net gain in revenue is equivalent to the amount of gain realized by private entities paying asbestos fees.
10. Fee collection amounts for FY 2017 through 2022 are based on an average of 113 registrations per year (112 from private entities), 86 inspections per year (85 from private entities), 346 abatement notifications per year (336 from private entities), and 535 demolitions per year (510 from private entities).
11. The fees collected are uniformly distributed throughout the fiscal years.
12. This fiscal note only includes estimated costs for changes made as a result of this proposed rule amendment.
13. Numbers in charts are shown as whole numbers but actual numbers may include decimal places which may appear to be a variance in totals.

**Title 10—DEPARTMENT OF NATURAL RESOURCES
Division 10—Air Conservation Commission
Chapter 6—Air Quality Standards, Definitions, Sampling
and Reference Methods and Air Pollution Control
Regulations for the Entire State of Missouri**

PROPOSED AMENDMENT

10 CSR 10-6.250 Asbestos Projects—Certification, Accreditation and Business Exemption Requirements. The commission proposes to amend subsection (3)(C). If the commission adopts this rule action, the department does not intend to submit this rule amendment to the U.S. Environmental Protection Agency because the rulemaking to adjust the asbestos fee structure is administrative and the rule has never been approved as part of the Missouri State Implementation Plan. The evidence supporting the need for this proposed rulemaking is available for viewing at the Missouri Department of Natural Resources' Air Pollution Control Program at the address listed in the Notice of Public Hearing at the end of this rule. More information concerning this rulemaking can be found at the Missouri Department of Natural Resources' Environmental Regulatory Agenda website, www.dnr.mo.gov/reg/index.html.

PURPOSE: This rule requires individuals who work in asbestos projects to be certified by the Missouri Department of Natural Resources' Air Pollution Control Program, requires training providers who offer training for asbestos occupations to be accredited by the Missouri Department of Natural Resources' Air Pollution Control Program, and requires persons who hold exemption status from certain requirements of this rule to allow the department to monitor training provided to employees. Each individual who works in asbestos projects must first obtain certification for the appropriate occupation from the department. Each person who offers training for asbestos occupations must first obtain accreditation from the department. Certain business entities who meet the requirements for state-approved exemption status must allow the department to monitor training classes provided to employees who perform asbestos projects. The purpose of this rulemaking is to change the asbestos fee structure pursuant to section 643.079.10, RSMo. This proposed rulemaking will increase the asbestos worker certification fee from twenty-five dollars (\$25) to forty dollars (\$40) per certification, increase the non-asbestos worker certification fee from seventy-five dollars (\$75) to one hundred dollars (\$100) per certification, increase the asbestos worker recertification fee from five dollars (\$5) to twenty dollars (\$20) per certification, increase the non-asbestos worker recertification fee from five dollars (\$5) to fifty dollars (\$50) per certification. The increased asbestos fees will enable the department's Air Pollution Control Program to maintain its asbestos program to protect the health of Missouri citizens. The evidence supporting the need for this proposed rulemaking, per 536.016, RSMo, is section 643.079.10, RSMo, and the May 28, 2015, presentation to the Missouri Air Conservation Commission.

(3) General Provisions.

(C) Certification/Recertification Fees. The department shall assess—

1. A seventy-five dollar (\$75) application fee for each individual applying for certification except for asbestos workers. **Effective January 1, 2017, the application fee is one hundred dollars (\$100);**

2. A twenty-five dollar (\$25) application fee for each asbestos worker. **Effective January 1, 2017, the application fee is forty dollars (\$40);**

3. No application fees for asbestos air sampling technicians;

4. A twenty-five dollar (\$25) fee for each Missouri asbestos examination; *and*

5. A five dollar (\$5) renewal fee for each renewal certificate./ **for asbestos workers. Effective January 1, 2017, the renewal fee**

is twenty dollars (\$20); and

6. A five dollar (\$5) renewal fee for each renewal certificate for non-asbestos workers. Effective January 1, 2017, the renewal fee is fifty dollars (\$50).

AUTHORITY: section 643.225, RSMo [2000] Supp. 2013. Original rule filed Dec. 14, 1992, effective Sept. 9, 1993. For intervening history, please consult the Code of State Regulations. Amended: Filed July 14, 2015.

PUBLIC COST: This proposed amendment will cost three thousand four dollars (\$3,004) in FY 2017. For the years after FY 2017, the total annual aggregate cost is six thousand eight dollars (\$6,008) for the life of the rule. Note the attached fiscal note for assumptions that apply.

PRIVATE COST: This proposed amendment will cost thirty-four thousand eight hundred ninety-five dollars (\$34,895) in FY 2017. For the years after FY 2017, the total annual aggregate cost is sixty-nine thousand seven hundred ninety dollars (\$69,790) for the life of the rule. Note the attached fiscal note for assumptions that apply.

NOTICE OF PUBLIC HEARING AND NOTICE TO SUBMIT COMMENTS: A public hearing on this proposed amendment will begin at 9:00 a.m., September 24, 2015. The public hearing will be held at the Missouri Department of Natural Resources, St. Louis Regional Office, 7545 S. Lindbergh, Suite 220, DESE Conference Room, St. Louis, Missouri. Opportunity to be heard at the hearing shall be afforded any interested person. Interested persons, whether or not heard, may submit a written or email statement of their views until 5:00 p.m., October 1, 2015. Written comments shall be sent to Chief, Air Quality Planning Section, Missouri Department of Natural Resources' Air Pollution Control Program, PO Box 176, Jefferson City, MO 65102-0176. Estimated Annualized Aggregate Asbestos Fee Cost For This Amendment**	\$6,008
---	---------

*The first full fiscal year for this rulemaking is 2018.

**Difference in estimated annualized aggregate costs when raising asbestos fees as follows:

Asbestos Worker Certification >> \$25 fee to \$40.
 Non-Asbestos Worker Certification >> \$75 fee to \$100.
 Asbestos Worker Recertification >> \$ 5 fee to \$20.
 Non-Asbestos Worker Recertification >> \$ 5 fee to \$50.

IV. ASSUMPTIONS

1. An annualized aggregate cost of this rulemaking is used for the purposes of providing the aggregate cost for the life of the rule. The annualized aggregate cost is the agency estimate of the average costs that will be incurred in any future year, no matter how far distant. For the convenience of calculating this fiscal note over a reasonable time frame, the life of the rule is assumed to be five (5) years although the duration of the rule is indefinite. If the life of the rule extends beyond 5 years, the annual costs for additional years will be consistent with the assumptions used to calculate annual costs as identified in this fiscal note.
2. The total numbers of certifications and recertifications are based on a five-year average for fiscal years 2010 through 2014 because it is the most recent data that contains no atypical yearly values. These values are estimated to remain constant through fiscal year 2022.
3. The numbers of public entity certifications and recertifications are based on data collected for asbestos-related activities for calendar years 2013 and 2014 because it is the most recent data that contains no atypical yearly values. These activity levels are estimated to remain constant through fiscal year 2022.
4. The fees for exams, accreditations, and exemptions are not being changed in this rulemaking. Therefore, they are not included in this fiscal analysis.

5. Asbestos worker certification fees are based on \$40 per certification effective January 1, 2017. This fee represents a \$15 increase from the fee of \$25 per certification prior to January 1, 2017.
6. Non-asbestos worker certification fees are based on \$100 per certification effective January 1, 2017. This fee represents a \$25 increase from the fee of \$75 per certification prior to January 1, 2017.
7. Asbestos worker recertification fees are based on \$20 per recertification effective January 1, 2017. This fee represents a \$15 increase from the fee of \$5 per recertification prior to January 1, 2017.
8. Non-asbestos worker recertification fees are based on \$50 per recertification effective January 1, 2017. This fee represents a \$45 increase from the fee of \$5 per recertification prior to January 1, 2017.
9. The aggregate gain in public entity fee revenue for the Missouri Department of Natural Resources' Air Pollution Control Program is directly related to the difference in asbestos fees. The net gain in revenue is equivalent to the amount of gain realized by public entities paying asbestos fees.
10. Fee collection amounts for FY2017 through 2022 are based on an average of 468 asbestos worker certifications per year (14 from public entities), 373 non-asbestos worker certifications per year (26 from public entities), 1557 asbestos worker recertifications per year (31 from public entities), and 802 non-asbestos worker recertifications per year (104 from public entities).
11. The fees collected are uniformly distributed throughout the fiscal years.
12. This fiscal note only includes estimated costs for changes made as a result of this proposed rule amendment.
13. Numbers in charts are shown as whole numbers but actual numbers may include decimal places which may appear to be a variance in totals.

4 entities with a total of 192 filings	Life and Health Insurers	\$2,880

III. WORKSHEET

(Projected number of paper filings from 2015 through 2019) x (SERFF user fee) = aggregate cost

Property and Casualty Insurers: $(86+78+70+66+60) \times (\$15) = \$5,400$

Life and Health Insurers: $(47+42+37+35+31) \times (\$15) = \$2,880$

Aggregate Cost (5 year projection) = $\$5,400 + \$2,800 = \$8,280$

IV. ASSUMPTIONS

The Department began using the System for Electronic Rate and Form Filing ("SERFF") in 2007. From that time until the present, utilization of SERFF for insurance filings has been voluntary on the part of the companies. From 2010 until 2015 both the number of companies making paper filings and the number of paper filings submitted has dropped significantly as companies have continued to voluntarily adopt the use of SERFF.

Separate from the Department's filing fee, SERFF has a user fee of fifteen dollars (\$15) per filing made within SERFF.¹

Using SERFF data from 2010 through 2014, the Department created a trend line to project the number of companies making paper filings and the number of such filings that will be made over the next five years in an attempt to accurately determine the aggregate cost to private entities. Section 536.205.1(3) requires an estimate of aggregate cost to private entities to comply with the rule. However, because the life of the rule is unknown, it is impossible to determine a total aggregate cost. Thus, the Department has utilized the aforementioned 5-year projection. While the aggregate cost will likely increase yearly beyond the next five years, the trend line projects that such yearly increase will be smaller and smaller each subsequent year yet never reach zero.

For perspective with regard to the private cost and total impact of this rule:

- 1) While the aggregate cost to private entities is projected to be \$8,280, the total premium volume for the Missouri insurance industry in 2013 was \$32,914,611,786.²
- 2) Additionally, while the aggregate number of paper filings affected by this rule is projected to be 552, the total number of filings made to the Department over the prior five years is 53,222.

¹ There is a discounted price if a company makes bulk filings, but no company currently making paper filings would reach the threshold to receive the discounted rate in any given year; therefore, the fifteen dollar (\$15) primary rate is used for the purposes of the cost calculation.

² 2013 is the most recent data collected at this time.

PROPOSED RULE

20 CSR 200-6.700 Procedures for Forming and Operating a Missouri Domestic Surplus Lines Insurer

PURPOSE: The purpose of this rule is to prescribe procedures to be followed in applications for a certificate of authority to form and operate a Missouri domestic surplus lines insurer. This rule also effectuates and aids in the interpretation of section 384.018, RSMo.

(1) The procedures outlined in this section are the procedures required for the successful formation of a Missouri domestic surplus lines insurer authorized to write any kind of insurance that a nonadmitted insurer not domiciled in Missouri is eligible to write.

(A) The insurer must be admitted and domiciled in Missouri. Any foreign insurance company or incorporators wishing to become or form a Missouri domestic surplus lines insurer must satisfy this requirement in one (1) of the two (2) following manners:

1. Any foreign insurance company wishing to become a Missouri domestic surplus lines insurer must first redomesticate to Missouri pursuant to the procedures outlined in section 375.908, RSMo, and 20 CSR 200-17.300; or

2. Any incorporators wishing to form a Missouri domestic surplus lines insurer must first form a Missouri domestic insurance company pursuant to the procedures outlined in sections 379.010-379.065, RSMo (insurance companies other than life), and 20 CSR 200-17.100.

(B) The insurer must furnish to the director proof that the insurer possesses policyholder surplus of at least twenty million dollars (\$20,000,000).

(C) The insurer must furnish to the director proof that the insurer is an approved or eligible surplus lines insurer in at least one (1) jurisdiction other than Missouri.

(D) The board of directors of the insurer must pass a resolution seeking to be a domestic surplus lines insurer in Missouri.

(E) The insurer must provide a copy of its current articles of incorporation. The director may waive this requirement at his/her discretion if such articles of incorporation are already on file with the department and no amendments have been made.

(F) The insurer must provide a copy of its current bylaws. The director may waive this requirement at his/her discretion if such bylaws are already on file with the department and no amendments have been made.

(G) The insurer must pay any required filing fees pursuant to section 374.230, RSMo.

(H) The insurer must submit all biographical affidavits for all officers, directors, and other key personnel of the company. The director may waive this requirement in whole or part at his/her discretion if such biographical affidavits are already on file with the department and no changes have been made to the officers, directors, and other key personnel of the company.

(I) The insurer must submit any other information requested by the director relevant to the issuance of a certificate of authority as a domestic surplus lines insurer.

(J) The insurer must surrender to the director its certificate of authority to transact admitted insurance business in the state of Missouri.

(K) Upon satisfaction that the requirements outlined in subsections (1)(A)–(J) of this section have been met, the director will accept the surrender outlined in subsection (1)(J) of this section and concurrently issue the company a certificate of authority, which shall constitute

written approval for the company to be a domestic surplus lines insurer pursuant to section 384.018.1(4), RSMo.

(L) For insurers that choose to satisfy the requirements of subdivision 1 or 2 of subsection (1)(A) simultaneously with subsections (1)(B)–(I), subsection (1)(J) will be deemed satisfied without the issuance and subsequent surrender of a certificate of authority to transact admitted insurance business. Insurers already in possession of a certificate of authority to transact admitted insurance business must satisfy subsection (1)(J) as written.

(2) All financial and solvency requirements imposed by Chapters 374, 375, 379, and 382, RSMo, upon domestic admitted insurers shall apply to domestic surplus lines insurers unless domestic surplus lines insurers are otherwise specifically exempted. These financial and solvency requirements shall include, but not be limited to:

(A) Financial examination pursuant to sections 374.202 to 374.207, RSMo;

(B) The deposit requirement in section 379.098, RSMo. For the purposes of section 379.010, RSMo, a domestic surplus lines insurer shall be considered to be making two (2) or more classes of insurance. The deposit required in order to satisfy subsection (1)(A) above, may continue to be held in satisfaction of this requirement, provided the deposit is of the amount specified in section 379.010.2, RSMo, for a company making two (2) or more classes of insurance;

(C) Requirements imposed by Chapter 382, RSMo, which are all deemed to be financial and solvency requirements for the purposes of section 384.018.6, RSMo; and

(D) All other financial and solvency requirements imposed by Chapters 374, 375, 379, and 382, RSMo, upon domestic admitted insurers.

(3) All requirements imposed by Chapter 384, RSMo, upon nonadmitted insurers shall apply to domestic surplus lines insurers unless domestic surplus lines insurers are otherwise specifically exempted.

(4) A financial or solvency requirement imposed by Chapter 384, RSMo, upon domestic surplus lines insurers shall supersede a requirement imposed under section 384.018.6, RSMo and section (2) of this rule only to the extent that Chapter 384, RSMo, addresses the same financial or solvency requirement. This supersession shall be construed narrowly. Any ambiguity as to the supersession of a requirement imposed under section 384.018.6, RSMo and section (2) of this rule shall be interpreted in support of the continued application of such requirement.

(5) For the purposes of section 374.230(3), RSMo, the certificate of authority issued pursuant to section 384.018.1(4), RSMo and subsection (1)(K) of this rule shall be a certificate of authority for which annual renewal is required.

(6) By way of the certificate of authority issued to a domestic surplus lines insurer pursuant to section 384.018.1(4), RSMo and subsection (1)(K) of this rule, a Missouri domestic surplus lines insurer shall be authorized to write that kind of insurance in Missouri as required by section 384.021.1(1), RSMo.

(7) Credit shall be allowed pursuant to section 375.246.1(1), RSMo for reinsurance ceded to a Missouri domestic surplus lines insurer.

AUTHORITY: section 374.045, RSMo Supp. 2013, and section 384.018, RSMo Supp. 2014. Original rule filed July 15, 2015.

PUBLIC COST: This proposed rule will not cost state agencies or political subdivisions more than five hundred dollars (\$500) in the aggregate.

PRIVATE COST: This proposed rule will not cost private entities more than five hundred dollars (\$500) in the aggregate.

**Title 4—DEPARTMENT OF ECONOMIC
DEVELOPMENT
Division 340—Division of Energy
Chapter 2—Energy Loan Program**

IN ADDITION

Notification: Applications accepted between September 1, 2015 and November 30, 2015 for Energy Efficiency and Renewable Energy Loan Cycle.

The Missouri Department of Economic Development's (department) Division of Energy is making available approximately seven million five hundred thousand dollars (\$7,500,000) in loan financing for

qualified energy efficiency and renewable energy projects. Energy-saving investments may include projects such as insulation, lighting systems, heating and cooling systems, combined heat and power, pumps, motors, aerators, renewable energy systems, and other measures that reduce energy use and cost. Recipients repay loans with money saved on energy costs.

Eligible Energy-Using Sectors: Loan funds will be allocated to eligible energy-using sectors as follows:

- Public Schools (K-12): twenty-five percent (25%) of available funds;
- Public and Private Higher Education Institutions: twenty-five percent (25%) of available funds;
- Public and Private not-for-profit Hospitals: twenty-five percent (25%) of available funds; and
- Local Governments: twenty-five percent (25%) of available funds. Local governments include a county, city, or village (which may include water treatment plants or waste water facilities); or any hospital district as defined in section 206.010, RSMo; or any sewer district as defined in section 249.010, RSMo; or any water supply districts as defined in section 247.010, RSMo; or any ambulance district as defined in section 190.010, RSMo; or any sub-district of a zoological park and museum district as defined in section 184.352, RSMo.

Application Procedures: An application for loan funds may be submitted to the department for the purpose of financing all or a portion of the cost of implementing an energy-saving project.

Each applicant may apply for a loan not to exceed one million dollars (\$1,000,000). Loan applications will not be considered for less than ten thousand dollars (\$10,000) or with a payback score of less than six (6) months.

If funds remain after review and priority ranking of applications, the department will consider awarding loans in excess of one million dollars (\$1,000,000).

Requests for loan financing must be made using the Division of Energy's Energy Loan Program Application Authorization Form, Fuel Use Summary Form, and Energy Conservation Measure Summary Form. Application forms and instructions are available on the department's website: <http://www.ded.mo.gov/division-of-energy/financial/energy-loan-program>.

The Application Authorization Form must be signed and dated by an authorized official. An authorized official is an individual with authority to obligate an eligible applicant to the terms of loan agreement and promissory note to repay loan proceeds.

A paper or electronic copy of the signed original Application Authorization Form and required documents may be submitted to the department's address below.

Applications received after November 30, 2015 will not be considered for a loan award for this 2016 cycle but may be held for consideration during subsequent application cycles.

The department may request additional information as needed to determine the feasibility of a project, the project's estimated annual energy savings, and financial risks of a loan transaction. Also, an energy conservation measure has the potential of affecting other areas

within your facility or system. Applicants must have no outstanding actions for violations of applicable federal, state, or local laws, ordinances, and rules.

Interest Rates: Loan principal plus two and three quarters percent (2.75%) interest is to be repaid to the department in semi-annual payments not to exceed a ten- (10-) year repayment period. An administrative fee of one percent (1%) of loan principal will be added to the repayment amount.

Selection Criteria: Recipients of loan financing will be determined on a competitive basis. Applications will be ranked based on the project's payback score, which is determined by dividing the cost to implement a project by the estimated yearly energy cost savings. Projects with the lowest payback score in each sector allocation will be funded until all available funds are allocated. If all funds are not allocated in any one (1) sector after ranking payback scores, the department may allocate funds to other sectors. Loan applications will be approved or disapproved by February 29, 2016.

Background

The individuals listed in this notice have recently filed applications requesting MoDOT to issue SPE Certificates to exempt them from the physical qualification requirements relating to vision in 49 CFR 391.41(b)(10), or to diabetes in 49 CFR 391.41(b)(3), which otherwise apply to drivers of CMVs in Missouri intrastate commerce.

Under section 622.555, RSMo, MoDOT may issue an SPE Certificate, for not more than a two- (2-) year period, if it finds that the applicant has the ability, while operating CMVs, to maintain a level of safety that is equivalent to or greater than the driver qualification standards of 49 CFR 391.41. Upon application, MoDOT may renew an exemption upon expiration.

Accordingly, the agency will evaluate the qualifications of each applicant to determine whether issuing an SPE Certificate will comply with the statutory requirements and will achieve the required level of safety. If granted, the SPE Certificate is only applicable to intrastate transportation wholly within Missouri.
